

The company laid down a Whistle Blowing policy to justly protect the whistle-blower, including protection from persecution when filing a report. The company provided the channel for all stakeholders to file the report or complaint on those matter likely to cause damage to the company, whether they concern the accuracy of financial statement, internal control system deficiency, or any act likely to violate the laws and business ethics, or the matters that the stakeholder' right is violated or the corruption. The whistle blower could directly communicate through the channel as follow;
